WORK EXPERIENCE

Software Developer

Corpusvision Technologies Pvt Ltd

06/2020 - 12/2020

Engaged as a freelance professional, undertaking diverse projects such as Apnatok, ChaiWala, and others.

Description

- Worked on Apnatok It's an ultimate app for unleashing your creativity and connecting with a global community. With ApnaTok, you can create and share short, captivating videos that showcase your talents, unique perspective, and vibrant personality.
- By implementing Mobx-State-Tree, we ensured a streamlined flow of data, enabling enhanced performance and maintainability.
- We used React Navigation as a standalone library to facilitate seamless navigation within our application.
- **Tech stack** - React Native, Mobx-State-Tree.

Software Developer Intern

Engineer Master Solution (EMS)

02/2020 - 04/2020

Achievements/Tasks

- Developed and integrated traffic alarm APIs, leveraging expertise in API creation, implementation, and action-oriented problem-solving.
- Implemented Navigation and developed components of various projects.
- **Tech Stack** - React Native, HTML, CSS.

PERSONAL PROJECTS

Online Blogging Platform

Java | Spring Boot | MySQL | REST APIs

05/2023 - 06/2023

Courses

- Created a custom online blogging system using Java, Spring Boot, MySQL, and Hibernate. It includes essential features like writing, updating, reading, and deleting blogs, along with the ability to like posts from other users.

ONLINE MOBILE-SHOPPING

React.js | Paypal Express | Bootstrap4.

07/2019 - 09/2019

Description

- Led e-commerce website development, facilitating secure transactions and effortless mobile device discovery. Leveraged React.js and Bootstrap 4 to create dynamic, interactive UI components, expediting and simplifying web development.
